## Director's Message

We strongly believe, '**children must be taught how to think and what not to think**'

At R. G. Academy, our focus is not just on the approved syllabus but also on 360 degree development of our children. We have created a platform for our children where they can learn, experience, collaborate on ideas and enjoy their school journey. At R. G. Academy there is a perfect blend of studies and co-curricular activities. All work and no play is strictly not acceptable to us as the faculty. We want to assimilate our students to a challenging and a constantly changing world. We are set to equip the students with required skills sets.
